Safety Quality Teamwork

MT5000 / 10000 MOBILE TEST BENCH

KEY FEATURES & BENEFITS: Our mobile test bench gives you the luxury of a fixed test console just about anywhere you need to test. The sturdy construction includes stainless steel gage panel, industrial casters and table area with plenty of room to lay out your documents and schematics.

SPECIFICATIONS: Two air driven pumps, high pressure 0-10000 psi / low pressure 0-5000 psi, connections for external source and 5 gallon hydraulic reservoir. Dimensions: 3Wx6Lx4H

SERVICE: Setting pressure switches, relief valves, single well panels, certification for high pressure hydraulic hoses, capable of testing control panels that don't have their own pressure source.
